

To Whom It May Concern

Please put an end to all of this!!

How many signatures were verified? How many people received multiple ballots? How many ballots were sent back, proving that their list was wrong! How many duplicates did we have? Why were ballots sent to prisoners in jail? Why are dead people voting? I think we all know the answer to these questions

Absentee ballots are meant for those in service, those gravely ill

The least you can do is secure our elections, in person, and fraud proof! Most people are back to work, school, social gatherings...there is absolutely no reason they cant make it to vote. If they care that much to vote, they will show up! Do not meddle with our Constitution and warp it to suit your ways.

Thank you

Craig Tilden- Newtown, CT
